

During the last 30 years, as Mayor/City Councilman, local businessman, resident and District Director for Supervisor Jeffries, I have been a vocal champion for a well-planned Lake Elsinore.

Since my election to the City Council in 2003, we have:

- Balanced the budget while creating a rainy-day fund
- Lowered your taxes by refinancing Community Facilities Districts
- Made public safety number one priority & hired more deputies
- Built two new fire stations to protect lives and property
- Improved freeway interchanges, added new traffic signals and dozens of paving projects
- Opened 5 new parks, 3 dog parks and modernized 4 others
- Started a graffiti removal program and improved Code Enforcement
- Revitalized the City's Beaches, Boat Launch and Campground

Lake Elsinore is our home so I have worked to bring more shopping and dining opportunities to the valley to keep our taxpayer dollars local and keep cars off our congested freeways.

The City is not all about work and that's why I advocated to improve the sport fishing and boating opportunities on our lake while attracting new hotels that now fill up during the weekend.

With your vote, we can keep Lake Elsinore moving forward. www.bobmagee.net
