Project Title: Third Street Storm Drain (SCH# 2017041051)

Lead Agency Contact Person: Richard J. MacHott, LEED Green Associate, Planning Manager

Telephone Number: (951) 674-3124 x 209

Project Location: The proposed Third Street Storm Drain Project (Project) is located south of State Route 74 (Central Avenue), in the central portion of the City of Lake Elsinore, and is generally aligned within Third Street, but also includes portions of Collier Avenue, Cambern Avenue, Conard Avenue, and Welch Drive. Township 5 South, Range 4 West, Section 31 (Latitude 33°41'26" North; Longitude 117°19'59" West).

Project Description: The Project proposes the phased installation of an underground reinforced concrete pipe (RCP) and a reinforced concrete box (RCB) structure in order to adequately collect and convey the drainage flows of approximately 704 tributary acres under a 100-year flood event. More specifically, the Project involves the construction of a master drainage facility that would provide flood protection to the existing Third Street channel watershed and adjacent properties. Phase 1 is the installation of drainage facilities in Cambern Ave, Third St, and under I-15 where it will transition to tie into an existing flood improvement located north of the Collier Ave/Third St intersection. Phase 2 is the installation of drainage facilities in Welch Dr, southeast along Conard Ave toward Third St, and southwest along Third St towards Cambern Ave where it will tie into the Phase 1 improvements.

Both Phase 1 and Phase 2 of the Project would include the installation of several lateral connection points for future land uses. Phase 1 and Phase 2 would be designed to meet Riverside County Flood Control District (RCFCD) standards.

This is to advise that the Lake Elsinore City Council (Lead Agency) has approved the above project on June 13, 2017, and has made the following determinations regarding the above-described project:
