

Finance was my MBA major. I substitute teach in Lake Elsinore High Schools and helped to bring in Costco, Home Depot, Target and Lowe's into our City.

Lake Elsinore has 19 parks, 3 cement skateboard parks, and 4 dog runs. We are currently reworking Tuscany Hills Park and Canyon Hills Park with artificial turf, plus reworking the playground equipment. Future plans include a 520,000-square foot sports complex, 230 new recreational vehicle hookups at our campground on Riverside Drive, Super Walmart, Honda dealership, and a strip mall on Central Avenue.

Rosetta Canyon Park has received numerous awards as well as hosted many championship tournaments.

With Caltrans transportation being a problem, the City and developers are stepping forward to widen and repave Railroad Canyon Road to 3 lanes, adding one on each side from I-15 to Canyon Hills Road.

As the International Mayor, one of my responsibilities on the City Council is to solicit companies located in Asia to relocate in Lake Elsinore. Jobs, jobs, and more jobs for our local citizens. The foreign companies would need to recruit and train American workers. GYLED.com is making that move to Lake Elsinore.

I would appreciate your vote in November.
