

## Shoreline Safety

In January 2005, the City Council commissioned a "Lake Elsinore Shoreline Safety Assessment" by an aquatic safety expert, Thomas Griffiths, Aquatic Safety Research Group. As a result of this assessment, the City implemented a number of measures to increase public safety, as highlighted below.

To communicate shoreline safety information, the City installed controlled access points at Elm Grove Beach to channel visitors past important safety signage.

**The Shoreline Safety Sign identifies FIVE important safety messages.**

1. Danger, Sudden Drop offs (Hidden underwater hazards)
2. Danger, No Diving (Beware of shallow water)
3. Swimming is now permitted in designated areas only (La Laguna Beach and Elm Grove Beach)
4. Warning, Watch You Children! (Keep small children within arms's reach)
5. Caution, Alcohol is prohibited on all City beaches (Water and alcohol do not mix)

**SHORELINE SAFETY INFORMATION**

DANGER

**SUDDEN DROP OFFS  
HIDDEN UNDERWATER  
HAZARDS**

DANGER

**NO DIVING!**  
Source of shallow water.

WARNING

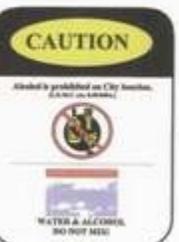

**NO SWIMMING!**  
WADING and deep is permitted in designated areas only.

WARNING

**WATCH YOUR CHILDREN!**  
Keep small children within your reach.

CAUTION

Alcohol is prohibited on City beaches.  
(A fine is assessed.)

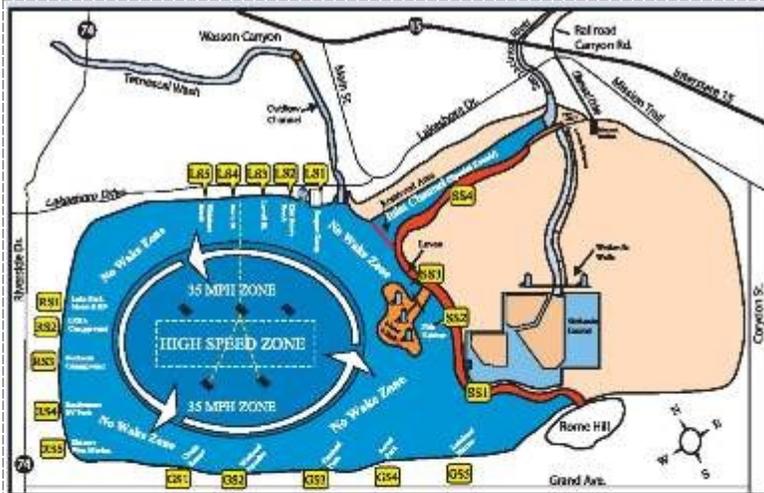

**WATER & ALCOHOL  
DO NOT MIX!**

CALL  
911

**In Case of EMERGENCY – Phone 911.**

Sheriff's Non-emergency: Phone 1-800-950-2444.

**Shoreline Zone Identification** system identifies shoreline location, with each location having its own assigned zone and permitted activity. **The Shoreline Zone Identification Poles** are tall poles placed at key locations around the Lake, with signs identifying zones (letter and number) and permitted activity symbols. The Shoreline Zone Identification poles allow for a coordinated and timely response from local emergency services.
