

I am a husband to my amazing wife and a father to our four amazing children. We have lived in Lake Elsinore Since October 2015. I want to be a solution to help our community continue to grow and thrive. I have been the owner of a construction company for 15 years and have used biblical values to help change the culture of the construction industry one project at a time. We have been part of churches in other areas as leaders, but recently been involved and serving at Amazing Church Lake Elsinore.

As the 5th district council member, I will continue to focus on making sure every decision I make lines up with God. I will fight for safety, family and our community at all times.
