

Friends and neighbors, like you, I care about Lake Elsinore and **I humbly ask for your vote**. When my wife, and I moved to Lake Elsinore, we looked to set deep, and long, roots. In 2014, we became foster parents to give children a safe, secure and stable environment to live in while awaiting reunification with their parents. Since then, we have adopted two wonderful little girls.

After high school, I joined the Marines to serve and protect our country. I then worked for a company where I progressed from driver to General Manager and saved it from bankruptcy. I have two Bachelors degrees and currently work for an essential business during this COVID-19 pandemic crisis.

In 2016, I ran for State Assembly and came in second. Later, I became President of Democrats of Southwest Riverside County, helped form Temecula Valley Democrats, joined Riverside County Democratic Party as Controller, and I'm a California Democrat Delegate forging friendships and alliances to become an effective leader. Regardless of party, our community prospers with effective leadership.

Traffic congestion, fire safety, better schools and infrastructure are important. Let's look forward to our own teaching hospital/university to provide excellent healthcare, internet access and local jobs.
