

As a City Councilman, Father and Homeowner, I have been a vocal champion for a well-planned Lake Elsinore for more than 30 years. I have pushed to increase public safety, reduced our homeless population, added new parks for our children and advocated for numerous road improvements.

My achievements in office include:

- Balancing the budget and creating a rainy day fund;
- \* Lowering Taxes through CFD Refinancing.
- Increasing our commitment to law enforcement & fire services;
- Constructed the new Youth Center and rehabilitated the Senior Center;
- Building twelve new parks and revitalizing eight others;
- \* Completed five dog parks, four skate parks and the County's first BMX park;
- Improved code enforcement and graffiti removal programs;
- Revitalizing the City's Beaches, Boat Launch and Campground;
- \* Secured funding for freeway interchanges and road improvement projects and
- \* Created a vibrant downtown.

I have also worked to improve all our recreational activities, from sport fishing and boating to skydiving and off-roading with added attractions at Diamond stadium.

With your help, I would like the opportunity to continue to serve the residents and businesses of Lake Elsinore as a member of the City Council.
