NATIVE NATIONS LISTENING SESSIONS SUMMARY

Integral to the General Plan Update community engagement effort are the Native American Tribes (Native Nations) Listening Sessions. The Listening Sessions' intent is to better understand the Native Nations' concerns and integrate the perspectives into the General Plan and planning process, as appropriate. The Listening Sessions supplement the State-mandated tribal consultation processes as defined by Senate Bill 18 and Assembly Bill 52.

Two Native Nation Listening Sessions were conducted:

Session 1: Thursday, December 5, 2024 6:00 pm, Cultural Center 1138 North Main Street, Lake Elsinore, California

Session 2: Thursday, March 13, 2025 2:00 pm, Lake Elsinore City Hall 130 South Main Street, Conference Room A, Lake Elsinore, California

The agendas for both Listening Sessions are included in the appendix.

Listening Session 1 attendees included representatives from the Pechanga Band of Indians tribe. A Pechanga Band of Indians representative read a statement from the Soboba Band of Luiseno Indians requesting City staff to contact the Soboba Band's representatives directly.

Listening Session 1 provided an overview of a General Plan, the Lake Elsinore General Plan Update process, and the Listening Session's purpose and intent. Damaris Abraham, City of

Lake Elsinore Community Development Director, and planning consultant, MIG, staff members Jose de Jesus Leal and Lisa Brownfield asked participants to respond to questions about the tribes' vision and core values; the significance of Lake Elsinore to the tribes, any specific areas/topics of concern, and what a successful future partnership looks like. In summary, tribal representatives stated the lake is the origin of the world, source of life, and a sacred place.

Two Pechanga Band of Indians representatives participated in Listening Session 2. The conversation:

- explored pertinent issues facing both the tribe and the City as the General Planning process moves forward, and
- suggested possible policies or actions the City should explore for inclusion in the General Plan including but not limited to:
 - presence of a Tribal Consultation Policy (TCP),
 - encouraging project applicants include meeting with tribal representatives as part of a project's due diligence; and
 - convening ongoing coordination meetings between tribal representatives and City staff.

No additional Listening Sessions are anticipated. However, a tribal representative, associated tribal organization, or the City could request a third Listening Session be conducted.
